In Belgium, people developed a very particular & unique Belgian habit. For decades, they put their favourite biscuit, Lotus Biscoff, on their bread! Some used the whole biscuit, some crumbled it, others dunked it in their drink first. Delicious, but hardly practical. Until someone had a bright idea. Why not make a creamy spread of it? An enterprising Belgian mum created her own recipe and entered it in a competition for a TV show: The Inventors. And guess what? She made it to the finals! And afterwards, she has worked together with Lotus Bakeries to bring Lotus Biscoff spread to its smooth perfection.

It was Mr Henry Henderson who first began manufacturing his own special type of sauce back in the late part of the 19th century. Originally manufactured at 35 Broad Lane in Sheffield, Henderson's Relish is still being made and has been in uninterrupted production within half a mile of the site from which the first bottle was filled.

Lancashire Sauce is a vinegar based, mildly spiced condiment, which is suitable for **Vegetarians** and enhances the flavour of your food. Use it in the same way you would salt, pepper, or vinegar i.e. before cooking as a marinade, during the cooking process or on the finished product...or indeed all three!

Wharfe Valley Farms takes its name from the beautiful Wharfe Valley in Yorkshire. The Kilby family, (left), are third generation farmers who have been in Collingham since the 1960's, adding Oil Seed Rape to the traditional crop rotation in the early 1980's. Originally producing asparagus and strawberries on the farm, like many others, they found that they needed a more sustainable offering and diversified into producing traditionally cold-pressed rapeseed oil.
